City of Arkansas City, Kansas Neighborhood Services Division

Fence Permit Application

The provisions and requirements of Zoning Section 20-9 Fences of the City of Arkansas City Zoning Regulations with regards to fencing including the following stipulations:

20-901. No fence shall be constructed within the City unless it is constructed in conformance with the following requirements:

- a. A fence or wall may project into or enclose any required front, side or rear yard subject to access requirements of any established easement and in accordance with the following:
 - 1. The maximum height of fences or walls erected in a residential district shall be no more than six (6) feet in height for any side or rear yards measured from the adjacent grade.
 - 2. Any fence that extends beyond the front wall of any principal structure shall not be more than four (4) feet in height.
 - 3. For corner lots in a residential district, a solid fence six (6) feet in height may be constructed in the side street front yard subject to the following:
 - a. The fence shall not extend nearer to the front street lot line than the front wall of the principal building.
 - b. The fence shall not extend into any sight triangle as defined in these regulations.
 - c. The zoning administrator shall establish which yard is the side street front yard.
 - 4. For institutional uses in residential districts, such as schools, parks, hospitals and cemeteries, a fence may be constructed at a maximum eight (8) foot height provided it does not constitute a traffic hazard.
 - 5. A fence may be erected in a commercial district or industrial district to not more than eight (8) foot maximum height, except no fence shall have a height greater than six (6) feet in a required front yard, except where these Regulations provide otherwise.
 - 6. Except as otherwise set forth in these regulations, permitted materials for fences or walls on all properties shall include:
 - a. new lumber and new wood boards (picket style).
 - b. chain link.
 - c. wrought iron and decorative aluminum.
 - d. vinyl (picket or panel style).
 - e. brick and masonry (including proper footing in accordance with the building codes).
 - f. stone, rock, and concrete block (including proper footing in accordance with the building codes).
 - g. stucco (including proper footing in accordance with the building codes);
 - h. any generally accepted fencing materials commonly used in the fencing industry as approved by the Zoning Administrator.
 - 7. Prohibited materials shall include but not be limited to:
 - a. sheet metal.
 - b. metal building siding and roofing materials.
 - c. corrugated metal or fiberglass.
 - d. chicken wire.
 - e. plywood.
 - f. scrap wood.
 - g. scrap metal.
 - h. canvas, nylon or other non-rigid material or fabric.
 - i. cast-off, secondhand, or other materials not originally intended to be used for constructing or maintaining a fence (including pallets).

- j. stock fences (including cattle or hog panels) except in the Agricultural (A) District.
- k. Barbed wire, except:
 - 1. When property exclusively used for agricultural purposes is annexed into the City and the barbed wire fencing does not pose a risk to pedestrians. Risk to pedestrians shall be presumed when any barbed wire fencing is located within 10 feet of any pedestrian sidewalk, street or public thoroughfare.
 - 2. On top of perimeter fencing of storage areas in industrial and commercial district zones, provided that barbed wire atop such fences shall be at least 6 feet above the ground with a maximum fence height of 8 feet;
- l. Electric charged, except:
 - 1. An electric fence not exceeding 24 volts and completely contained within a landowner's fenced property shall be permitted if the landowner first obtains approval from City Code Enforcement;
 - 2. Electronic detector loops for animal containment systems shall not be classified as an electric charged fence;
- m. Concertina wire or looped barbed-wire
- 8. The zoning administrator may require a photograph or sketch of the proposed fence.
- b. The finished surface of all fences shall face outward from the property. However, in the case of two or more property owners wishing to share a common fence line between their properties, said property owners shall jointly determine upon which side of the common fence line the finished face of the fence shall be placed. Such determination shall be consistent for the entire length of the common fence line.
- c. Any existing fence which was in conformity with the provisions of any previous ordinance and which was in place as of the date of adoption of these regulations may remain without change, notwithstanding same may be in conflict with one or more provisions of these regulations. However, any replacement or change consisting of more than 50 percent of said existing fence or addition of a new fence shall meet the requirements of these regulations.

It is the responsibility of the applicant, owner and/or contractor to locate property lines, build the fence according to the approved site plan, and contact 1-800-DIG-SAFE for the location of utilities on said property. It is the responsibility of the applicant to contact this office at 620-441-4420 to schedule an inspection.

- 1. A scaled site plan showing the location of the fence, approximate property lines and other structures must be attached to this permit before issuance.
- 2. The following must be described on the permit located on the back of this page:
 - a. Date
 - b. Job address where fence will be placed
 - c. Owner name, address, and phone number of property.
 - d. Contractor name and number if applicable.
 - e. Work Description: Must describe what kind of fencing will be installed, how much, and where on the property the fence will be installed at.
 - f. Valuation: Must include materials and labor. If property owner is doing work, labor still has to be calculated.
